## Deckhand

# Austin Lee

### PROFILE

I aim to secure a deckhand position onboard a charter or private yacht. I have worked in many different job settings, each giving me unique skills and opportunities. I am good at working in different and new work environments and love learning and doing things that push me outside my comfort zone. I feel that I can be a great addition to an exterior team. I am ready for a new challenge and can't wait to learn and grow more in the open seas.
