PROFILE

As a confident, enthusiastic and focused individual, I am dedicated to delivering the highest level of professionalism within any role with a friendly and positive manner. From my training in sports and health fitness I am extremely driven and passionate about my work, having studied a lot about this industry and believe I have the skills required to make a good deckhand. Priding myself on my range of skills, flexibility and my eagerness to learn, grow and broaden my knowledge and experience, I am now looking to advance my skills to working as a deckhand in the superyacht industry. Working as part of a team is very natural to me as I have always worked with the general public and learnt to stay calm and focused when dealing with high pressure situations. I am a very positive person with a great sense of humour. I am always punctual with an approachable and professional manner, and am always looking to improve my professional development and growth, looking for an opportunity to jump right in to expand my knowledge and diversify my skills.
