- Quality Customer Service
- Effective time management
- High energy and stamina levels
- Adjustable and work well in a team setting
- Knowledge and experience of water activities such as tubing, slalom ski, jet-skiing, wakeboarding, kayaking, stand-up paddling and kneeboarding

### OBJECTIVE

I am an 18 year old South African man who recently graduated high school and have dreamt of joining a yacht for many years. I grew up loving the ocean and spending time on the water, so this is a very natural venture for me.

I am new to this industry and willing to work hard to prove that I have what it takes to make a meaningful contribution to any yacht.

I have done both my STCW-95 and ENG1 qualifications to best prepare me for what lies ahead. I also did my inland skippers' licence at age 16 in 2020.

I am a very charismatic and energetic person, and I love working with people. I am very responsible and will take on any role handed to me with vigour and enthusiasm. I take great interest in water sports, as well as maintenance and hospitality on board.

I have my B1/B2 Visa on hand and I am ready to travel if needed.
