### Profile

I am a very motivated individual who thrives on challenges and enjoys working in busy environments. As an excellent team player I am able to take instructions from all levels and can build up very good working relationships with colleagues. I am flexible, reliable and possess excellent time keeping skills. I have a wide variety of experiences from high speed customer facing roles to caring for young children as a nanny. My work has required very early starts meaning I'm not afraid of hard work. Considering then my passion for traveling and enjoying my time I have spent on boats, it has led to me having an interest in the superyacht industry. I would very much like to use all the skills I have gained over the years from various roles in one position
