

ABOUT

I like to believe I am a respectful, ambitious and very hard working individual with a good sense of self drive and a strong personality. Growing up in the tourism industry has helped me develop my social skills immensely which is something I take pride in and has had its benefits along the way. I attended a well instituted boarding school of which equipped me with a high level of respect and humility, something I am very grateful for. Having lived on the banks of the Zambezi River I have grown up around boats and spent endless hours on the water, I feel as though the yachting industry will suit what I hope to achieve and I hope to offer what it is the industry requires of a crewmember. I am excited to learn and gain experience in this field.
