Goals / About Myself

After changing my life from being a dentist for many years, traveling the world to working as a Chief of Service in a hotel in Switzerland, I discovered, that I am much happier working in hospitality, because it simply fits my personality best. Now that I have worked on land and sea, I find that I prefer being at sea. I bring not only the required character qualities, but also my cheerful and positive spirited attitude and life experience to the table. I am a hard working, focused, team playing and very loyal person and therefore I think, I would be a valuable asset to your crew. I would like to learn from and contribute my skills to your crew.

I am looking forward to add to my skills and with it, to bringing more happiness into peoples lives by creating them the very best experience while being on a yacht.
