💉 2x Pfizer + 1x Moderna

## PROFILE

Confident, extremely reliable, and hard worker. I am looking to secure an Engineer or Deckhand position. My long-term goal is to build up a career on yachting and progress into the industry, on both departments. Highly positive, laid-back individual with plenty of life experiences and an absolute passion for new challenges. I have excellent abilities at multi-tasking in busy environments and meticulous attention to detail. I am well organized to work unsupervised, capable to perform tasks under pressure and an excellent team worker. What stands me up from the rest of the crowd are both my confidence and life experiences. I seek longevity and an opportunity to showcase my skills, to become a valued crew member of any vessel. I love the outdoors and my main hobbies are watersports, skydiving, travelling, music, and photography. Background in Health & Fitness and Hospitality.
