Career Objective:

I'm looking for a yacht where I can work hard and be a team player, as I work best in a team based on my sports history in school. I'm a hard worker since I grew up on a farm and always had to take initiative with my horses. I work well under pressure. I do not mind if my Chief Stewardess tells me to do better; there is always room for improvement. I like doing things now when given a task. Not leave it for later on to do. I'm looking forward to growing with my team.
