

# ASHTON DUNBAR

## Deckhand/Engineer

### Profile

I am a qualified Electrician with 10 years experience in the electrical field, where I accumulated an immense amount of knowledge and looking to further myself within.

Having served as a Lifesaver for over 2 years, I am comfortable with clients of all ages and cultures and it has taught me to stay calm and collective in high pressure situations.

Competent, committed and hardworking is how I would describe my work ethic and my overall self. I am highly motivated, fast learning and enjoy being challenged. I am easy going and good natured when working with a team and I always see a task through to the end.

I can ensure I would be an asset to a Professional vessel as a dynamic crew member with ambition, a good sense of humor and hands on attitude.

I see myself as a well managed and scheduled person.
