Objective

I am seeking a permanent captain position on a motor yacht private or charter where there is an opportunity for longevity. I look forward to utilizing my years of experience to provide excellent safety, maintenance and the best experience for our guests.

About me

We built our 50 ft family sailboat in 2002 and went sailing in the tropics, then I purchased a sailboat in 2010 and headed to sail around the world, but it quickly turned into a charter business. From that, I made my way up to larger yachts. I enjoy flying for fun, horse riding, and any water sports, including scuba diving, and gym.

Longevity

- 4 years for the same employer on land.
- 3 years for the same employer at sea.
- 4 yachts with the same management company.
- References for all previous jobs on request.
