HOBBIES AND INTERESTS

Born in the south of Brazil, in a touristic and paradisiac state called Santa Catarina, I have always spend my life outside, surfing around Santa Catarina beaches, skating, traveling and studying languages. Since I was a child, I always dreamed to have a career in something different, dealing with people. Working onboard makes sense to me because I always feel connected with the ocean and I really like to take care of people, to make them feel good and comfortable, that's the reason why I decided to graduate in tourism and hospitality and that's the reason why I would like to have a career on a yacht.
