## Profile

Over 8+ years' working on different ships and yachts. I'm skilled at trouble shooting and management with different tools, engine repairs, engine room watch, painting, teak cleaning, varnishing, polishing etc and a very good listener and a team player who respects hierarchy and very well experienced in a high stress environment with positive attitude. Well disciplined competent seafarer with expertise in marine engines and deck works through education and experience, seeks for a similar role to produce immediate growth contribution to rewarding company. I am organised, enthusiastic, reliable and respectful person with a positive and proactive mindset. I am skillful at everything that you can expect from a well-trained multi-task mate/engineer. Also experienced in underwater scuba diving and underwater photography.
