Location: Cape Town, South Africa

Visas: Japanese passport, South African residence permit

CPR & First Aid Certified Dive Medical: DAN

Languages: Native Japanese, College level English

PC: Microsoft Office, Photoshop, PC and Mac literate

Non-smoker, No tattoos

PROFILE AND OBJECTIVE

Offering safe skipper after leaving my previous career as Earthquake Reinforced Concrete Building project manager. I have obtained all the below-mentioned certificates and licenses within the last year. Experiencing work at Pisces Divers, Cape Town-based 5-star PADI dive career development centre, and its program and PADI instructor exam preparation course made me appreciate PADI's Business, legal, marketing strategies, and modern Psychology approaches for communicating with clients and colleagues. I am excited to implement them with my yachting clients and colleagues. And I can contribute my Emergency Oxygen Provider, Rescue, Aquatic Injuries, and physiology knowledge to clients and colleagues. Last, STCW Security Awareness Training (PSA) and AEC 2 can be completed quickly at my expense upon your request. Plus, I can obtain any VISA with my golden Japanese passport.

Engineering graduate from Chuo
College of Technology

MARITIME EXPERIENCE

Pisces Divers 1 | 9m | Skipper | Cape Town | Charter | April 2022 – Nov 2022

We have successfully completed many dive boat charter and Cape Point safari tours. I was involved in the tender operations, anchoring operations, bridge watches and I have played a big part in assisting guests with their SCUBA and Free Dives which has given me an in-depth knowledge of that area.

Benguela | 9.5m | Skipper | Cape Town | Private | April 2022 – Jun 2022

I joined this yacht to build 2500 NM before obtaining my Royal Yachting Association (RYA) offshore skipper licence. We experienced hitting a large floating log at night and shattered its keel and had to negotiate with insurance to do two day emergency repair in order to sail back from Durban to Cape Town, another 1250 NM. Second, I also learnt that an important skill of co-living together no matter what happens among all other crew in such confined space for over 4 weeks.

Cape 31 Nemesis | 9.56m | Bosun | Cape Town | Private | Aug 2022

I was invited to assist Mr. Philip Baum, World Sailing Vice President, to participate with his Lipton Challenge Cup.

Avatar | 9.5m | Bosun | Cape Town | Private | Jun 2022 – Nov 2022

I regularly participate with False Bay Yacht Club sail racing on Wednesday afternoon.

HOBBIES AND INTERESTS

I have a passion for sailing, SCUBA diving and all kinds of sports, biking, hiking, camping, running, walking, kayaking, etc. I enjoy doing Yoga in order to incorporate it with other sports, especially diving. I enjoy flying DJI Mini 3 drones and video editing.
