PERSONAL PROFILE

I have a huge effort capacity. You can count on me that I will do any job at any time just to be everything perfect;

- Optimistic, friendly and open-minded, so I can adapt easily in any situation.
- I am a calm and patient person, who knows how to integrate and work in a team and I know the importance of understanding and helping each other, especially in these circumstances.
- I have the capacity of learning very quickly and I am a responsible person, who can make the right decisions in critical situations.

My professional skills that I have acquired in my time on sea are: painting, chipping, working with a grinder machine, washing decks, but also working on Radar, GMDSS equipment and helping officers in the navigational watch. Also I practiced basketball for 8 years at the performance level.

My dream is to work on a yacht or in cruise industry.
